

# DIYG Customer- Jeff S. “Model 96 Beretta”

I wanted to thread and install a match barrel; replace the rear sight; and work on the trigger of my Model 96 Beretta. Derrick methodically went over the procedures for each task to ensure that I not only knew what I was doing, but way I was doing it. He is a phenomenally talented machinist, and gifted instructor. I am very pleased with the end results.
